

Product: Complete Dock Solution

Industry: Grocery Store Chain

Application: Loading Dock

CASE STUDY

Dock Equipment

Customer Looks For Custom Dock Solution

A customer needed a complete dock solution to address safety concerns in the loading dock area.

PROBLEM

The customer had concerns about the safety of warehouse employees and drivers at the loading docks because the docks had not been constructed to optimize loading and unloading vehicles.

Additionally, they needed a means of protecting the interior environment from outside elements including rain, snow, cold and insects.

SOLUTION

DH Pace configured a complete solution which included new safety trailer restraining devices, dock levelers and dock enclosures. The special fabrication resolved the safety and dock usage concerns the customer had faced.

CONCLUSION

The customer was very happy with the outcome of the project and is working with DH Pace on new loading dock projects going forward.
