

Product: Dock Levelers, Enclosures, Restraints

Industry: Food Manufacturing

Application: Loading Dock Area

CASE STUDY

Dock Equipment

Customer Looks For Complete Loading Dock Solution

A brewery needed a complete dock solution that addressed safety concerns in the loading dock area.

PROBLEM

The customer had concerns about safety at the loading docks. Additionally they needed a means of protecting the interior warehouse environment from outside elements including rain, snow, cold and insects.

SOLUTION

Our team provided a complete solution that included new safety trailer restraining devices, dock levelers, and dock enclosures.

CONCLUSION

The customer was very happy with the outcome of the project and is working with us on new loading dock projects going forward.
