CASE STUDY

## Industrial, High-Speed and Specialty Doors

### Community Service Project Helps Homeless with Hygiene

A community service project in Chandler, AZ tackles basic cleanliness necessities for homeless residents.

#### PROBLEM

Those involved with the community service project knew they wanted to help those in need by giving them access shower, wash their clothes and prepare themselves for new future opportunities.

They also needed the system to be portable to maximize the program's availability.

#### SOLUTION

DH Pace helped to outfit a custom trailer with unique doors which allowed the trailer to be secure and yet still open it up for more storage and access. The trailer features showers as well as laundry facilities for homeless people to clean up for possible work opportunities and better daily living.

#### CONCLUSION

Custom door solutions aren't always in buildings. Sometimes we can bring custom solutions to mobile operations to ensure a customers' needs are meet. In this case, it turned out to be for a community service project that helped all those involved.
